## 1 Identification of substance:

- Product details:
- Trade name: **RSP ULTRA SLICK**
- Application of the substance / the preparation: Lubricating grease
- Manufacturer/Supplier:  
**KORA GmbH.**  
Kristein 2  
A-4470 Enns  
Phone + 43 (0) 72 23 / 8 49 47 Fax + 43 (0) 72 23 / 8 49 50

## 2 Composition/Data on components:

- Chemical characterization
- Description:  
Lubricating grease: Thickener system and additives in solvent refined mineral oil.

Dangerous components:  
Void

R-phrases

## 3 Hazards identification

- Hazard designation:  
By handling of mineral oil products and chemical products no particular hazard is known when normal precautions (item 7) and personal protective equipment (item 8) are kept.
- Information pertaining to particular dangers for man and environment  
This product is water polluting; see item 12.
- Classification system  
The classification is in line with current EC lists. It is expanded, however, by information from technical literature and by information furnished by supplier companies.  
The classification results from the Conventional Method of 1999/45/EC concerning specific data of compounds.

## 4 First aid measures

- General information  
Change grease contaminated clothes. Do not suck in grease contaminated rags into the trouser pockets.
- After inhalation  
Supply fresh air; consult doctor in case of symptoms.

(Contd. on page 2)

(Contd. of page 1)

- (eventually by inhaling the overheated product)
- After skin contact The product is not skin irritating.
- After eye contact  
Rinse opened eye for several minutes under running water.
- After swallowing In case of persistent symptoms consult doctor.

#### 5 Fire fighting measures

- Suitable extinguishing agents  
CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.
- For safety reasons unsuitable extinguishing agents  
Water with a full water jet.
- Protective equipment:  
In case of fire fighting: wear self containing breathing apparatus

#### 6 Accidental release measures

- Person-related safety precautions: Not required.
- Environmental protection measures:  
Do not allow to enter drainage system, surface or ground water.
- Measures for cleaning/collecting:  
Collect mechanically.  
Dispose of the material collected according to regulations.
- Additional information: No dangerous materials are released.

#### 7 Handling and storage

- Handling
- Information for safe handling: No special measures required.
- Information about protection against explosions and fires:  
No special measures required.
- Storage
- Requirements to be met by storerooms and containers:  
No special requirements.
- Information about storage in one common storage facility:  
Store away from foodstuffs.
- Further information about storage conditions:  
Local regulations concerning handling and storage of waterpolluting products have to be followed.

#### \* 8 Exposure controls and personal protection

- Additional information about design of technical systems:  
No further data; see item 7.
- Components with critical values that require monitoring at the workplace:

(Contd. on page 3)

Trade name: **RSP ULTRA SLICK**

(Contd. of page 2)

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

• Additional information:

The lists that were valid during the compilation were used as basis.

• Personal protective equipment

• General protective and hygienic measures

The usual precautionary measures should be adhered to in handling the chemicals and the mineral oil products.

Avoid close or long term contact with the skin.

Use skin protection cream for preventive skin protection.

Do not carry cleaning cloths impregnated with the product in trouser pockets.

• Breathing equipment: Not required.

• Protection of hands: Protective gloves and protective skin cream.

• Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

• Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• For the permanent contact gloves made of the following materials are suitable:

Nitrile rubber, NBR

Neoprene gloves

• Not suitable are gloves made of the following materials:

Butyl rubber, BR

Natural rubber, NR

• Eye protection: Not required.

• Body protection: Protective work clothing.

9 Physical and chemical properties:

• General Information

• Form: Pasty

• Colour: Light brown

• Smell: Characteristic

•

• Change in condition

• Melting point/Melting range:

Dropping point: 145 °C ISO 2176

• Boiling point/Boiling range:

not applicable or not determined

• Flash point:

Not applicable

(Contd. of page 3)

- Self-inflammability: Product is not selfigniting.
- Danger of explosion: Product is not explosive.
- Density at 25 ° C ca. 0.88 g/cm<sup>3</sup> DIN 51 757
- Solubility in / Miscibility with  
· Water: Insoluble
- Viscosity or Consistency-Class: NLGI 1-2
- dynamic: NLGI 1-2

## 10 Stability and reactivity

- Thermal decomposition / conditions to be avoided:  
No decomposition if used according to specifications.
- Dangerous reactions No dangerous reactions known
- Dangerous products of decomposition:  
No dangerous decomposition products known

## 11 Toxicological information

- Acute toxicity:
- Primary irritant effect:
  - on the skin: No irritant effect known.
  - on the eye: No irritant effect known.
- Sensitization: No sensitizing effect known.
- Additional toxicological information:  
The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version.  
When used and handled according to specifications, the product does not have any harmful effects according to our actual informations.

## 12 Ecological information:

- Behaviour in environmental systems:
  - Mobility and bioaccumulation potential: No data available
- Ecotoxicological effects:
  - Behaviour in sewage processing plants:  
The product swims on the water surface.
- General notes:  
German Water Endangering Class 1 (Self-assessment): slightly hazardous for water.  
Do not allow to reach ground water, water bodies or sewage system.

## 13 Disposal considerations

- Product:
- Recommendation  
Smaller quantities have to be disposed in line with local legislation. When storing used mineral oil products, ensure that the categories for waste oil and mixing instructions are observed.  
Delivery of waste oil only to officially authorized collectors.
- European waste catalogue 12 01 12: spent waxes and fats
  
- Uncleaned packagings:
- Recommendation:  
Empty contaminated packagings thoroughly. They can be recycled after thorough and proper cleaning. Small one-way packagings have to be disposed according to the local regulations.  
EWC 15 01 99.

## 14 Transport information

- Land transport ADR/RID and GGVS/GGVE (cross-border/domestic)
- ADR/RID-GGVS/E Class: -
  
- Maritime transport IMDG/GGVSea:
- IMDG/GGVSea Class: -
  
- Air transport ICAO-TI and IATA-DGR:
- ICAO/IATA Class: -
  
- Transport/Additional information:  
No dangerous good acc. to dangerous goods/ transport directions.

## 15 Regulatory information

- Designation according to EU guidelines:  
Observe the normal safety regulations when handling chemicals or mineral oil products.  
The product is not subject to identification regulations under EC Directives until 2004/73/EC (29. ATP) and the Ordinance on Hazardous Materials. The concentrations of the dangerous compounds, which are possibly specified under point 2, are not above the value for classification. Local regulations must be kept.
  
- National regulations
  
- German Water Hazard Class:  
Water Engangering Class 1 (Self-assessment): slightly hazardous for water.
